

Whitening For Life

As a courtesy to all of our regular patients, we offer free take home whitening. This offer includes custom whitening trays as well as 4 tubes of opalescence 21% gel.

As an incentive to our patients, we will offer a life time supply of whitening gel, when a patient maintains their regularly scheduled hygiene appointments as well as complete all necessary dental treatment.

We strive for our patients to have the healthiest, most beautiful smile possible, and we look forward to maintaining yours for many years to come.
